

NOTICE OF COMMENCEMENT ENVIRONMENTAL SCREENING PROCESS OSCEOLA WASTE DISPOSAL SITE EXPANSION PROJECT

The Township of Admaston/Bromley has initiated an Environmental Screening Process (ESP) in accordance with Ontario Regulation 101/07 made under the Environmental Assessment Act (EAA). This regulation is applied to landfill site projects proposing to add 40,000m³ or more but not more than 100,000m³ to the total waste disposal volume, being exempt from Part II of the EAA if an ESP is conducted. The ESP is intended to determine if an increase in landfilling capacity for the Osceola Waste Disposal Site is feasible, and that the subsequent technical approvals will be attainable.

The Osceola Waste Disposal Site located in Part Lots 18 and 19 Concession 3, geographic Township of Bromley presently comprises a 1.53 ha landfilling area within a 25.3 ha site. The site serves the entire Township of Admaston/ Bromley, receiving waste for disposal locally and from the Douglas and Stone Road Waste Transfer Sites. Members of the public and agencies will be provided opportunities to participate in the ESP, scheduled consultation events will be advertised through the municipal web site, the Cobden Sun and Renfrew Weekender, and direct mailing to interested parties.

Information regarding the ESP will be made available at www.admastonbromley.com and at the municipal office at the address below.

**Dated at the Township of Admaston/Bromley
on the 25th day of September 2009**
